

# Dear Diary...

What would the characters from *The Tempest* write in their diaries?

What problems, situations, and emotions are they going thru? Who do they have a crush on? Who's getting on their nerves? Do they feel misunderstood in some way? What secrets are they keeping? How do they feel about the other characters in the play?

Choose any character from *The Tempest* and write about a problem or conflict they are dealing with. Write their feelings about the matter and the people involved and how they plan to solve their problems. How are they going to go about getting what they want? What do they want and how do they plan to get it?
